# Security Incident Reporting Policy

What counts as an incident, who reports it, and how it is handled and learned from

Policy statement: every security incident on a member site shall be reported, recorded and reviewed. Reporting is expected, not punished; the aim is to learn and prevent recurrence.

## 1. What is an incident

- Unauthorised entry, tailgating or forced access
- Theft, loss or damage of property
- Threats, harassment or violence involving visitors or staff
- Suspicious packages, vehicles or behaviour
- Loss of an access card or master key
- Cyber-physical events such as tampering with CCTV, door controllers or BMS panels

## 2. Severity levels

| Level | Definition | Notify within |
|---|---|---|
| 1 - Critical | Threat to life, serious injury, major theft, bomb threat | Immediately by phone |
| 2 - High | Forced entry, significant damage, harassment complaint | 1 hour |
| 3 - Medium | Policy breach, lost access card, minor theft | Same shift |
| 4 - Low | Near miss, unlocked door, observation | 24 hours |

## 3. Reporting and response

1. Report to the security control room or call the emergency number; give time, location and what was seen.
2. The shift supervisor secures the area, preserves CCTV footage and records the first account.
3. Critical and high incidents are escalated to the Head of Facilities and HR, and to the police where required.
4. A written report is completed within 24 hours with facts, actions taken and open questions.

## 4. Review

Incidents are reviewed monthly by the facilities and HR leads. Themes (for example repeated tailgating at one door) lead to a corrective action with an owner and date. Anonymised summaries are shared with all staff each quarter.
